ayush saini

--

Kurukshetra, Haryana, India

Summary

As a college student with a passion for both web and software
development, I am constantly seeking new ways to expand
my knowledge and skills in these fields. I have experience with
languages such as HTML, CSS, JavaScript, Python, and C++, and
am always looking to learn more and improve my abilities through
projects and online courses.

In addition to my technical skills, I am a proactive and detail-oriented
individual with strong communication and problem-solving abilities.
I enjoy working in a team environment and have a strong desire to
contribute to the success of a project.

I am excited to explore opportunities in web and software
development and bring my passion and skills to a company that
values innovation and growth. I am eager to learn from experienced
professionals and contribute to the development of impactful web
and software projects
